- Nuke
- Unity

- Python
- C++
- C#
- JavaScript
- VEX

- Perforce
- Git
- Jira

Core Skills

- 3D Modeling & Texturing
- Shaders
- Programming

Languages

- English
- Mandarin

Professional Experience

miHoYo, Genshin Impact — Shanghai, China — 2026.6 – 2026.9

ART QA ENGINEER (INTERNSHIP)

- Shipped Genshin 7.x Snezhnaya major update
- Tested playable characters and TPS mode with a focus on 3C, debugged animation and effects issues in engine and DCCs
- Simulated cloth and hair for Miliastra Wonderland outfits

Baobab Studios — Redwood City, CA — 2021.8 – 2021.12

MARKETING ARTIST (INTERNSHIP)

- Designed banners based on studio IP characters for online events such as film releases and holiday celebrations
- Executed online marketing campaigns, in-person screening events, and designed artbook layout for VR film *Namoo*

Projects

Heart Heist (3D Game) — 2026.1 - PRESENT

CHARACTER ARTIST

- LA-based indie developer Kumquat Studios' original title
- https://heartheistgame.com/
- Advised on high-level 3D art decisions such as rigging pipeline, polycount planning, and visual direction
- Sculpted main character 3D proof of concept

The Ring of Fire (3D Animated Film) — 2026.3 – 2026.5

CHARACTER TEXTURE & RENDER PIPELINE ARTIST

- SCAD Animation MFA student thesis
- Developed and tested a hand-painted texturing pipeline to replicate the stylized look of *Nimona* (animated film)
- Collaborated with director, producer, modeler, and rigger to set creative direction and solve character pipeline issues

Skylost (3D Open-world Game) — 2021.8 – 2022.5

ART DIRECTOR

- USC 2022 Advanced Game Project, developed by 30 students with a mock-AAA pipeline; A USC Games Expo 2022 selection; Published on Steam
- https://store.steampowered.com/app/1977890/Skylost/
- Led 10 artists across concept, modeling, animation, UI, tech art, and level art, providing draw-overs and written feedback to their daily work report
- Identified bottlenecks in development cycle and incorporated new tools for efficient art production
